

COMPANY PROFILE 2026

NEXT360
Organic Products Pvt. Ltd.

> “Build real solutions. Deploy them. Create measurable business value.”

FLAGSHIP VENTURE

Next360 Organic Marketplace

01

COMPANY

Who We Are

Next360 Organic Products Pvt. Ltd. builds digital platforms and practical software across commerce, business operations, mobility, advertising and digital infrastructure. We pair real-world project execution with scalable product development.

01	**Verified Commerce**	Building the Next360 marketplace around verification, traceability and access to organic, natural and eco-friendly products.
02	**Business Technology**	Developing operational systems including hospital management, CRM, IVR and workflow solutions.
03	**Digital Infrastructure**	Working on EV charging technology and digital screen infrastructure.
04	**AI-Assisted Software**	Building software products and platforms using modern AI-assisted development workflows.

02

DIRECTION

Vision & Mission

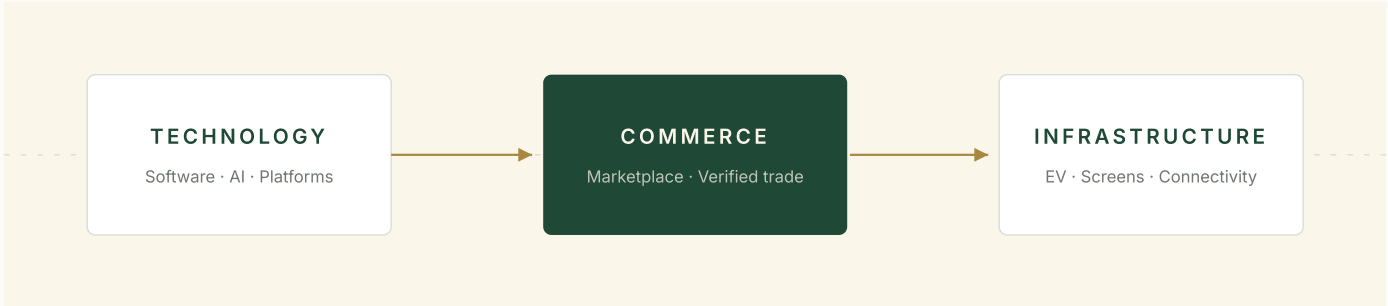

VISION

"Build a practical technology ecosystem that makes trusted commerce, connected infrastructure and digital business solutions accessible and scalable."

MISSION

"Build real-world products, improve business operations and digital visibility, and create long-term technology partnerships through modern software."

03

CORE VERTICALS

What We Build & Operate

Seven operating areas across commerce, business software, infrastructure and growth, presented as one portfolio, each with a defined purpose.

FLAGSHIP 01

Next360 Organic Marketplace

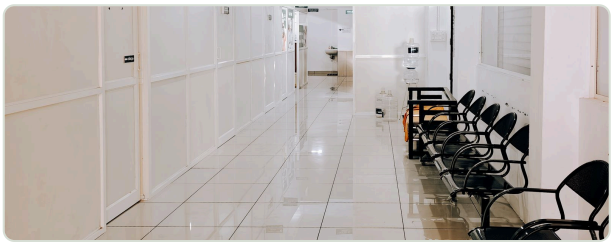

Flagship marketplace connecting consumers, farmers, producers, retailers and institutions around verified organic, natural and eco-friendly products.

02

Hospital Management System

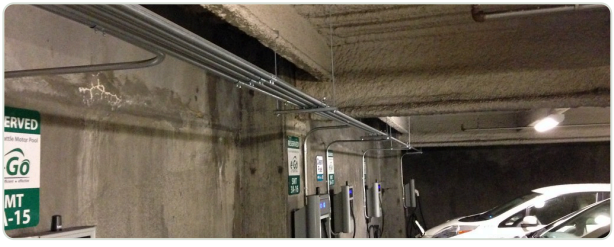

Technology solutions for hospital administration and operational workflows.

03

EV Charging Solutions

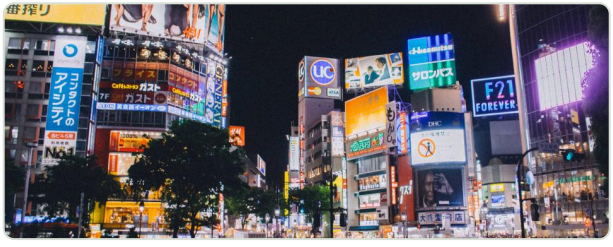

Technology initiatives supporting EV charging station operations and digital management.

04

Digital Screens & Transit Advertising

Digital screen infrastructure, advertising inventory and planned transit-screen deployment.

05

SEO & Digital Growth

Technical and on-page SEO, search visibility and digital growth support.

06

IVR Call Systems

Automated customer interactions, call routing and business communication workflows.

07

CRM Systems

Lead, customer, follow-up and operational workflow management.

Each vertical is an operating area of Next360 Organic Products Pvt. Ltd., not a separate legal entity. Project-level detail, timelines and status are documented separately in the project portfolio.

04

FLAGSHIP VENTURE

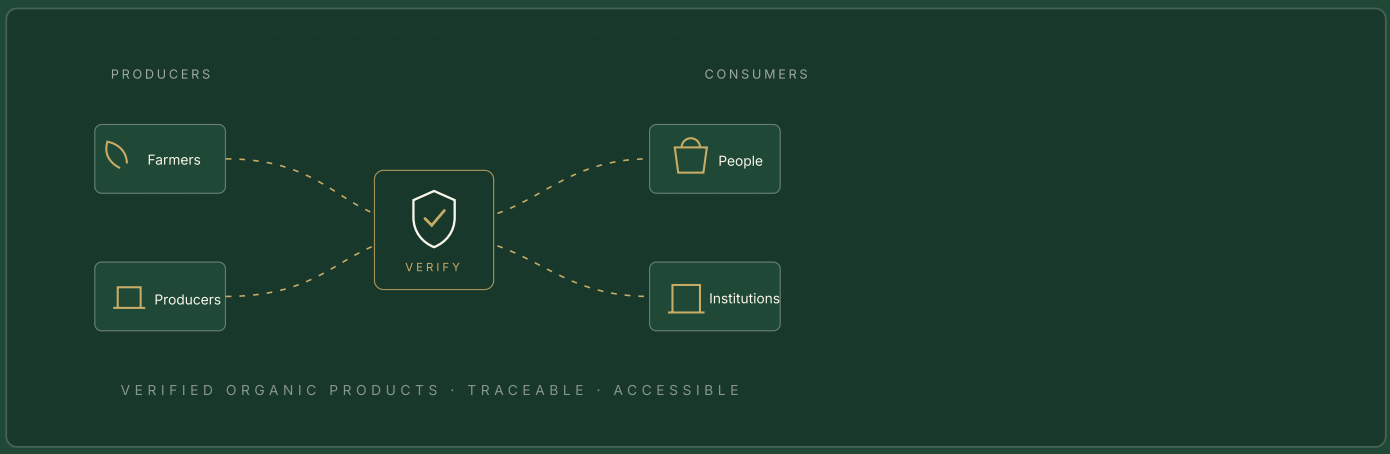

Next360 Organic Marketplace

Our flagship venture is a verification-first marketplace focused on organic, natural and eco-friendly products. The platform is being developed around trusted access, traceability and practical commerce workflows.

THE MARKETPLACE FLOW

01	02	03	04	05
PRODUCER	VERIFICATION	MARKETPLACE	CONSUMER	TRUSTED COMMERCE

VERIFICATION

Product verification and certification visibility.

TRACEABILITY

Seller onboarding and product-level traceability.

MARKETPLACE

Consumer commerce with opportunities for B2B participation.

ECOSYSTEM

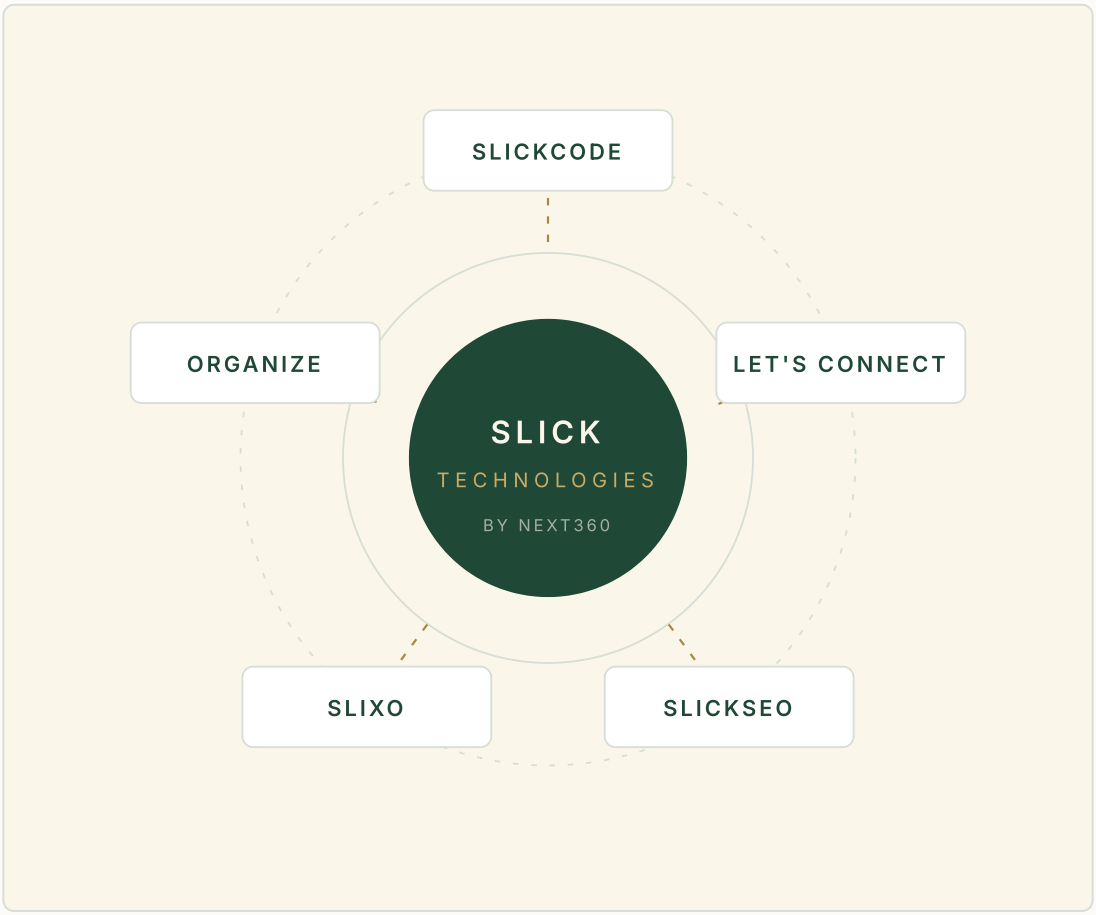

Connecting producers, sellers, consumers and institutions.

05

TECHNOLOGY ECOSYSTEM

Slick Technologies

Slick Technologies is the software and product ecosystem within our technology direction, focused on building practical digital platforms and products.

01	**SLICKCODE**	AI-assisted software development platform.
02	**LET'S CONNECT**	Digital networking and connection platform.
03	**SLICKSEO**	AI-assisted SEO and search optimization platform.
04	**SLIXO**	Billing, invoicing and customer management product.
05	**ORGANIZE**	Private, local-first personal capture and productivity product.

06

EXECUTION

How We Work

01

IDENTIFY THE PROBLEM

Understand the real operating problem before writing any technology.

02

BUILD THE SOLUTION

Engineer the required platform, system or product.

03

DEPLOY

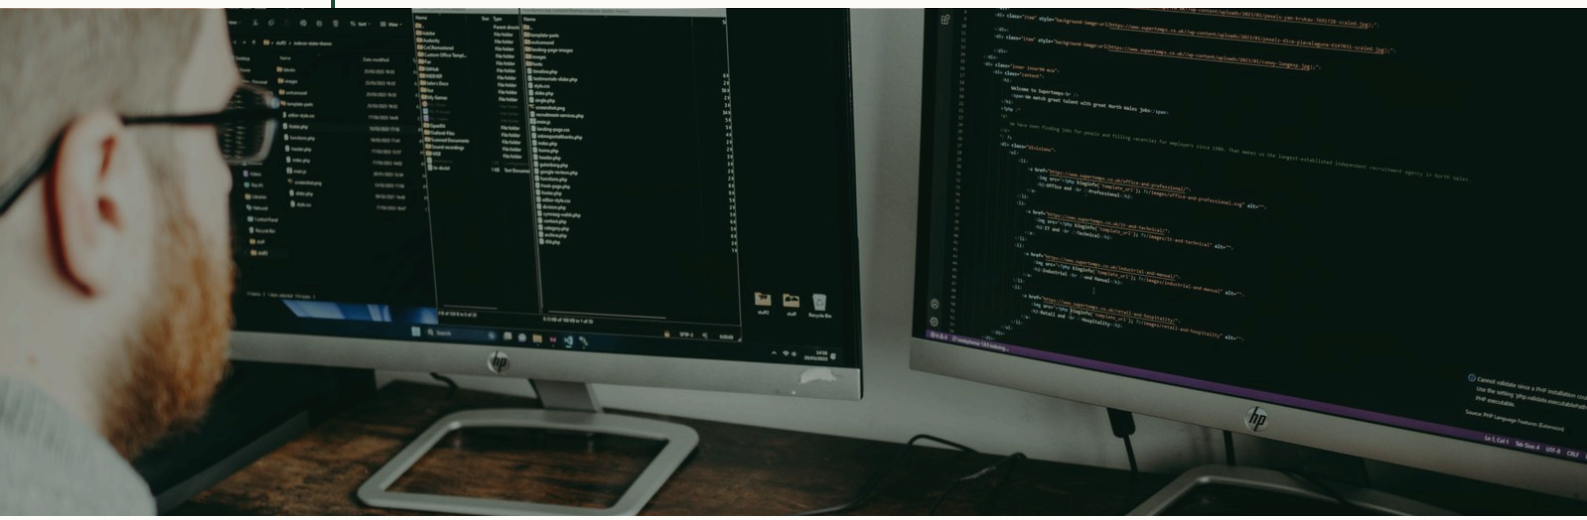

Put it into real operating environments, not demos.

04

CREATE VALUE

Measure whether it produces useful business value.

> **“We prioritize practical execution: understand the problem, build the required technology, deploy it into real operating environments, and measure whether it creates useful business value.”**

07

COMPANY SNAPSHOT

Current Company Position

12

TEAM MEMBERS

One team across product and delivery

A 12-member team supporting product development, technology delivery and company operations.

08
